7.4 Features (continued)

Repeat Dial

This feature allows the user to redial the last number dialed. To activate this feature, the user dials \*66. The last number dialed will then be redialed for up to 30 minutes and the user will be signaled with a special ring if the called number becomes available. The user will be charged each time this feature is activated regardless of whether the called party answers. Calls completed with this feature will be subject to all appropriate local, local toll and/or long distance charges. The following limitations apply to the Repeat Dial function when used with other features:

- Call Forwarding: Repeat Dialing may be denied when used to call numbers with Call Forwarding features.
- The following types of calls will be denied when Repeat Dialing is initiated: 911, 411, 611, Directory Assistance calls, Operator Assisted calls, and Partial dials.
- The following types of calls may be marked invalid: 800, 900, and 20+ digit calls.
- 3-Way Calling: Repeat Dialing will only work for the first party called, not for the second.

(D)  
(D)

Selective Call Rejection

This feature allows the customer to prevent calls from an unwanted caller whose number has been added to the customer's selective call rejection list. Customers can activate Selective Call Rejection by pressing \*60. Customers can cancel Selective Call Rejection by pressing \*80. Once activated, unwanted telephone numbers are routed to a recorded message informing the caller that the called party does not wish to accept their call. Up to 31 telephone numbers may be stored.

Speed Dialing 8

This feature allows the customer to use 1-digit speed calling to complete calls. Up to 8 numbers can be stored in memory.

Speed Dialing-30<sup>1</sup>

This feature allows the customer to use two-digit speed calling to complete calls. Up to 30 numbers can be stored in memory. Speed Dial 30 is only available with AT&T All In One Service and AT&T ACC Business Service<sup>2</sup> and AT&T Business Network Service<sup>2</sup>

<sup>1</sup> Effective April 28, 2007, Speed Dialing 30 is not available to newly subscribed AT&T Business Network customers.
